# COMIND INDUSTRIES

## COMPANY PROFILE

# OUR COMPANY – A BETTER TEAM AT THE SERVICE OF THE INDUSTRY

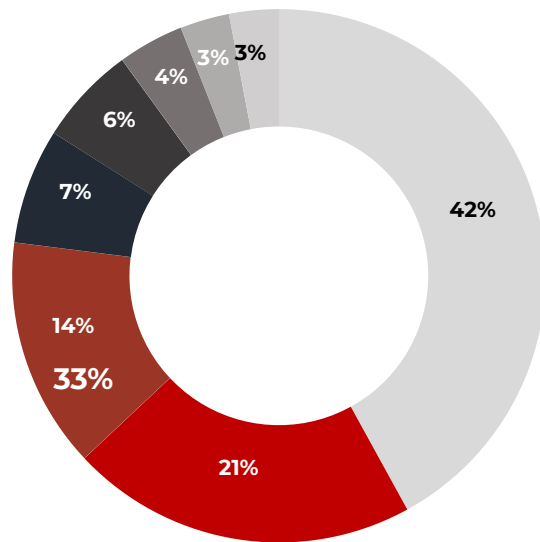

## COMPANY BACKGROUND

- > Founded 1991 – Familiar Company
- > 105 full-time employees
- > Sales in 5 countries

Comind provides safe, reliable in their products focused in process heating solutions –ventilation and extraction

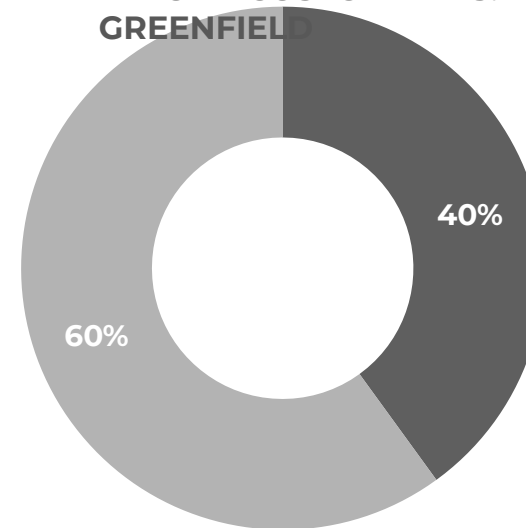

We specializes in providing complete solutions in process heating área , temperature maintenance, freeze protection and environmental monitoring solutions.

**MARKET SHARE**

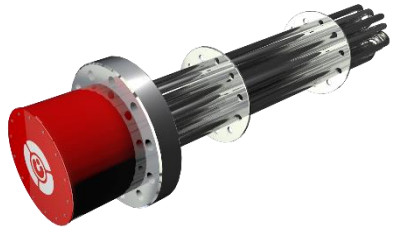

- MINING INDUSTRY
- CHEMICAL INDUSTRY
- FOOD
- ENERGY
- OTHER
- CONSTRUCTION
- TRANSIT
- MANUFACTURERS

**RETURN CUSTOMER VS. GREENFIELD**

**COMIND PRODUCTS**

- GREENFIELD
- RETURN CUSTOMER

## AIR & GAS HEATERS

Electric heaters engineered for industrial processes and environments with global approvals.

## CIRCULATION HEATERS

Electric heaters engineered for industrial processes and environments with global approvals.

## MEASUREMENT & CONTROL

Electric heaters engineered for industrial processes and environments with global approvals.

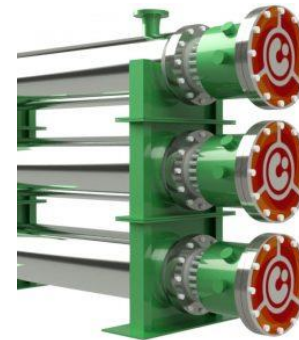

## IMMERSION HEATERS

Electric heaters engineered for industrial processes and environments with global approvals.

## RADIANT HEATERS

Electric heaters engineered for industrial processes and environments with global approvals.

## CATRIDGE HEATERS

Electric heaters engineered for industrial processes and environments with global approvals.

**SCRUBBER**

**AIR-HANDLING UNIT**

**CATRIDGE FILTERS**

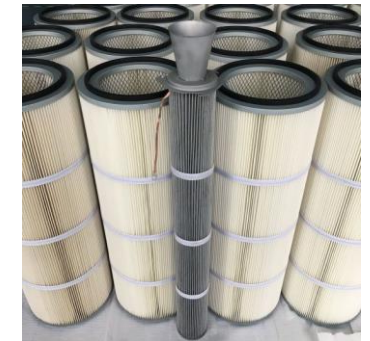

**DUST COLLECTOR**

**INDUSTRIAL PROCESS  
PILOT PLANT**

**AIR HEATING**

# INTRODUCING COMIND CONNECT

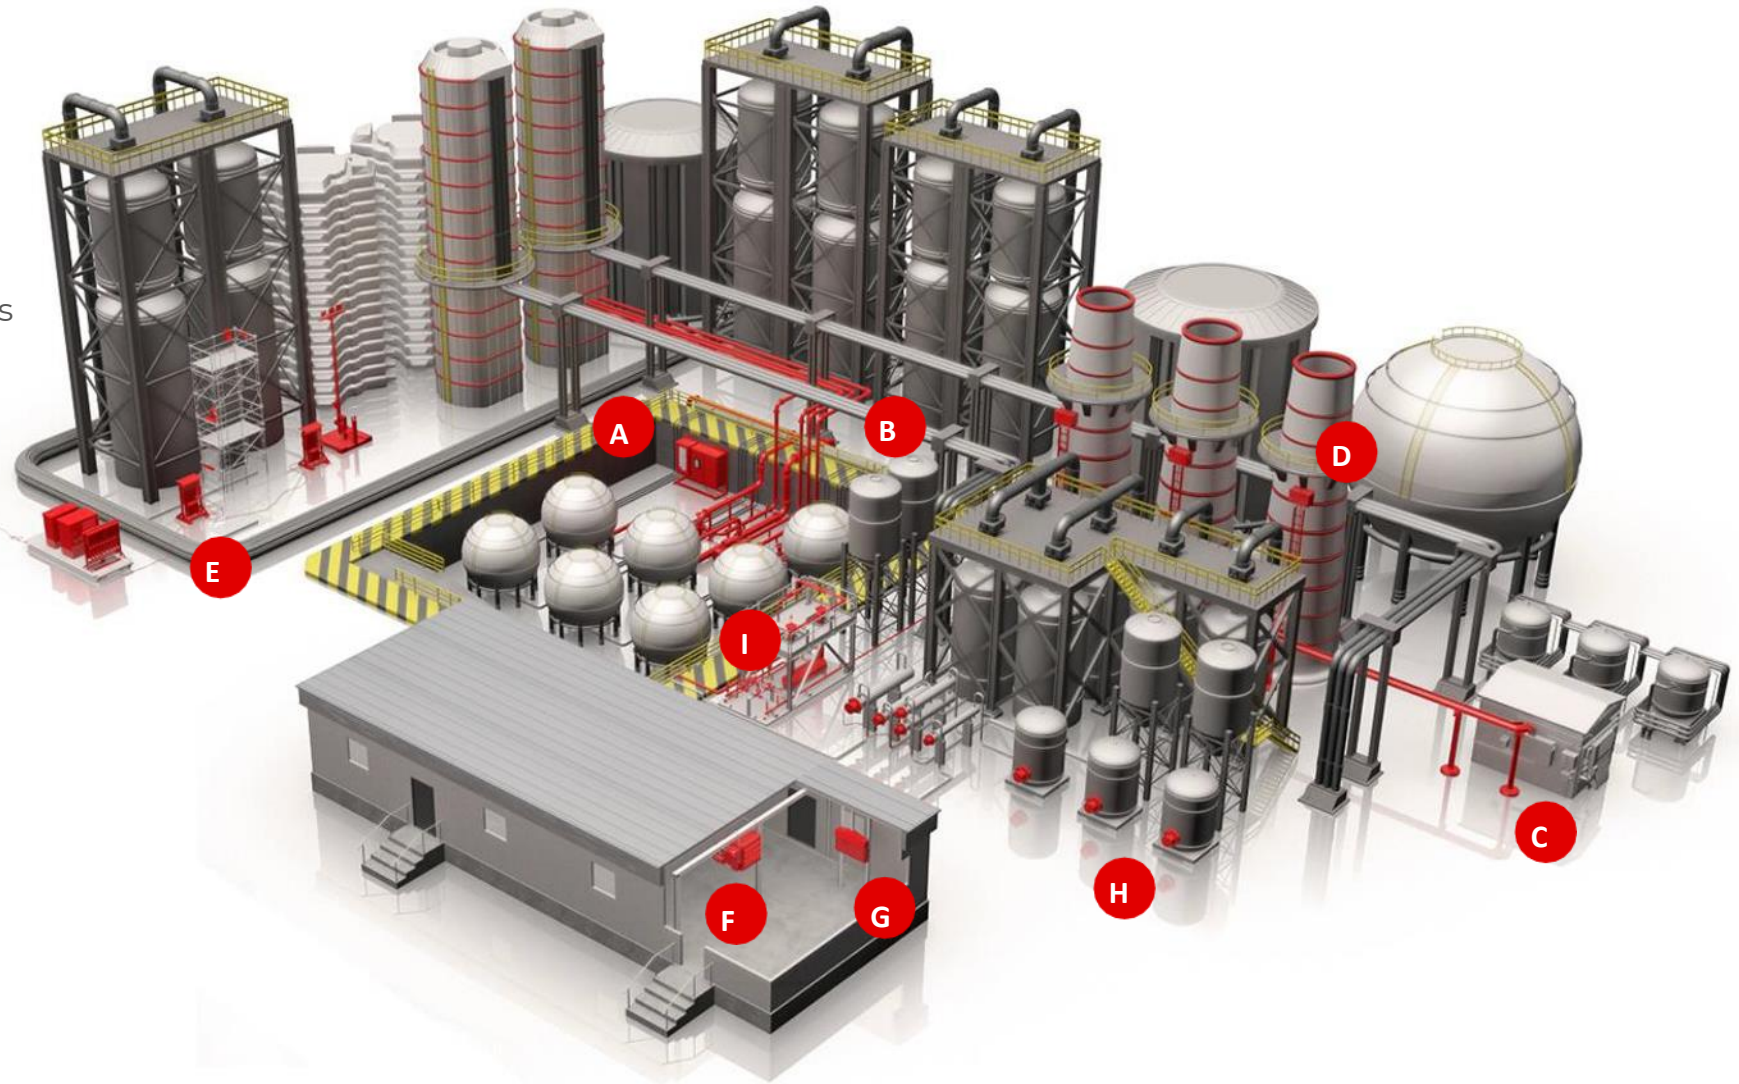

- ✓ Wireless technology
- ✓ Customers using the Comind Connect will save time and be more efficient in maintenance operations
- ✓ This program is IIoT technology and delivers industry leading benefits including:
  - browser interface
  - automatic software updates
  - BI integration
- ✓ Comind Connect is a platform that will grow, enhance and offer additional value over time

COMIND  
CONNECT

# LEADER IN INDUSTRIAL SOLUTIONS

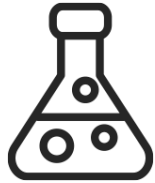

- A** Electric Heat Trace Systems
  - B** Process Heater Systems
  - C** Tubing Bundled Solutions
  - D** CEMS and Analytical Systems
- 
- E** Weld Heat Treatment
- 
- F** Environmental Air and Space Heaters
  - G** Pilot Plant
  - H** Immersion / Circulation Heaters
  - I** Dust Collector

# CUSTOMERS WE SERVE

# EXTERNAL MARKET DRIVERS

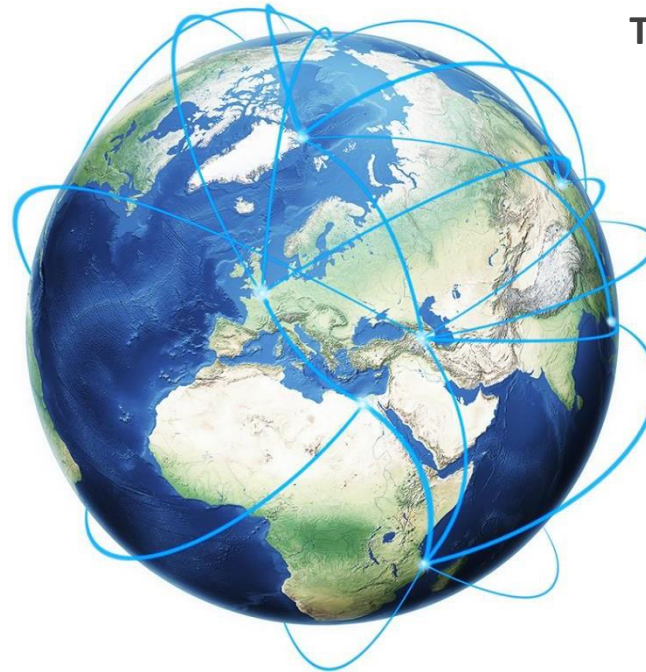

**Chemical and petrochemical demand growth**

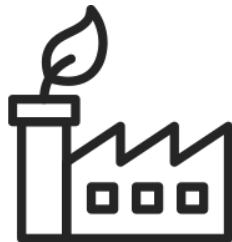

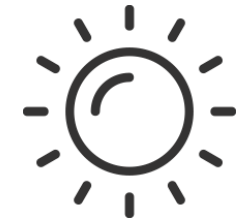

**Industrial Internet of Things**

**Developing market growth**

**Renewable energy**

**ELECTRIC Manufacture**

**Increasing environmental regulations**

**Electric powered industrial machinery**

With passionate people dedicated to anticipating customer needs, we will safely deliver innovative solutions to improve our customers' measures of success.

- > Breadth of solutions from Process Heating, ventilation-extraction and instrumentation
- > Years of engineering design expertise
- > Capacity & technology to execute projects
- > Commitment to quality & reliability
- > Top-tier on-time delivery and lead times
